Portfolio Project: Excel Retail Sales Dashboard

Vrinda Store — Annual Sales Analysis (2024)

About Me

Highly motivated Data Analyst skilled in Excel, SQL, Power BI, and Python with strong capability in transforming raw datasets into meaningful insights. Experienced in dashboard development, data cleaning, and customer behavior analysis. Passionate about solving business problems using data-driven decision-making and modern analytical tools.

Technical Skills

Excel	SQL	Power BI	Python
NumPy	Pandas	Advanced Excel	Data Cleaning

Project Overview

This Excel dashboard project analyzes Vrinda Store's 2024 retail sales data to uncover patterns in customer demographics, purchasing behavior, regional performance, and sales channels. The dashboard provides insights that enable targeted marketing strategies and operational improvements.

Dashboard Preview

Key Insights

- Women contribute approximately 65% of total sales.
- Customers aged 30–49 account for nearly 50% of orders.
- Maharashtra, Karnataka, and Uttar Pradesh are the top revenue-generating states.
- Amazon (35%), Flipkart (22%), and Myntra (23%) dominate sales channels.
- Over 90% of orders were successfully delivered.

Recommendations

1. Increase targeted promotion for women aged 30–49.
2. Focus marketing efforts in high-performing states.
3. Strengthen partnerships with Amazon, Flipkart, and Myntra.
4. Introduce bundled offers to enhance average order value.
5. Investigate return/cancellation patterns to minimize losses.
